

Flooring Area Worksheet

Use this worksheet to help you prepare details for your flooring project.

Where are you going to install flooring?

Consider the important factors below when choosing your flooring type. If you need help estimating your square footage, go to - <http://www.findanyfloor.com/OnlineTools.xhtml>.

Room Name	Approx. Sq. Ft.	Sunlight? (high/low)	Subfloor Type (concrete, plywood...)	High Traffic (yes/no)	Level (first floor, basement...)	Wet Areas? (yes/no)

Flooring Budget Worksheet

Use this worksheet to help you prepare details for your flooring project.

Do you have a budget?

Consider all of the various parts of a flooring project listed below. As you receive quotes or research different estimates, make note of them here to help you stick to your budget. If you need help estimating your square footage, go to - <http://www.findanyfloor.com/OnlineTools.xhtml>.

Things to consider	Estimated Cost (\$)	Details
Flooring (\$ per sq. ft. x total estimated sq. footage)		
Accessories (all trims, moldings, medallions, etc.)		
Demolition and disposal cost of existing floor*		
Installation: Professional (total estimate) Or Do-It-Yourself (renting/purchasing tools, etc.)		
Furniture moving/storage**		
Other expenses		
TOTAL PROJECT ESTIMATE		

* Be sure to ask your installer about plans for removing your existing floor and if they provide or charge for disposal services.

** If you may require professional moving services or temporary storage during your project, add these costs to your budget.

Flooring Finance Worksheet

Use this worksheet to help you prepare details for your flooring project.

Are you going to use financing?

Learn about financing options for your flooring project and important questions to ask. Use this table as you research different financing programs.

Financing Type	Total Project Cost	Down Payment	Credit Limit	Estimated Monthly Payment	Start-up or Annual Fee	Terms & Interest Rate	Special Incentives - Promos
